

TICC Luncheon Talk

Up Close and Personal with the BOI

The latest on the Board of Investment
with Khun Duangjai Asawachintachit, Assistant Secretary General

Wednesday 3 March 2010, Conrad Hotel

Despite all the negative reporting, 2009 was a very good year for investment in Thailand. The Board of Investment announced a record year in terms of new investment applications received (worth a total of 720 billion Baht).

The Italian, Belgian-Luxembourg, Netherlands, and Swiss chambers in Thailand are jointly organizing a luncheon presentation and discussion with Khun Duangjai, Assistant Secretary General of the BOI. She will bring us the latest news on the BOI (additional incentives, new activities eligible for promotion, etc).

But also, we do want to get back to basics with the BOI for those of our members who do not have a lot of experience investing in Thailand. And we will not be shy to address some critical issues facing investors in Thailand. If you have any issue, concern, or question, please feel free to raise them. In short, we are really getting Up Close and Personal with the BOI.

We look forward to receive your reservation.

Best regards,

Sandro Zanello
Secretary General
